## KEY ISSUES:

How to ensure the realization of the national development goals of the Russian Federation in the Arctic?

- ◆ How to maintain the population, improve people's health and well-being, and support families?
- ◆ How to realize the potential of each person, to develop his talents, to bring up a patriotic and socially responsible person?
- ◆ How to accelerate the digital transformation of the state and municipal administration, economy and social sphere?
- ◆ How to form a comfortable and safe living environment?
- ◆ How to strengthen environmental well-being in the region?
- ◆ How to create a sustainable and dynamic economy?
- ◆ How to achieve technological leadership?
